Correction: Development of a technology for obtaining a substance from Glycyrrhiza glabra L. roots by sequential extraction

The Version of Record first published on 5 October 2026 has been corrected on 8 October 2026 following receipt of an author-approved revised manuscript.

Nature of the correction

The corrected version incorporates the revised full text supplied by the authors, reports the exact quantitative results for dry-substance yield, glycyrrhizic acid and total flavonoids, includes the technological scheme, and corrects/clarifies author identifiers and biographical information.

The article conclusions remain consistent with the revised quantitative results. The original PDF is retained in the publication archive.

Article: Pharmaceutical Sciences and Health Products. 2026;1(1):e0005.

Corrected Version of Record: 8 October 2026.
